<sup>1</sup> P2 Fire Button 6	Gray	ee 27	Gray	P1 Fire Button 6 <sup>1</sup>
Ground	Black	ff 28	Black	Ground
SOLDER SIDE		COMPONENT SIDE		

**Please Note:**

<sup>1</sup> Many original JAMMA PCBs will only use up to 3 fire buttons per player. Only the newer multigame type PCBs will use the wires through the JAMMA harness for the 4th, 5th, and 6th pushbutton per player.

(\*) This JAMMA harness does include the optional 6th pushbutton used on some multigame PCBs such as (Blue Elf's, King of Kung-Fu, Just Another Pandora's Box, etc).
